

## **SUPREME** ATHMOS™ ZERO-EMISSION SEAL

Zero-emission  
and Condition Monitoring for ships  
with a limited draught

## SUPREME ATHMOS ZERO-EMISSION SEAL

### FEATURES

- Air and drain system that prevents oil leakage to the environment or water leakage into the stern tube
- Especially designed for ships with a limited draught up to approximately five meters
- Drain collection unit which will be emptied automatically into the vessel's general waste oil tank
- PLC which makes it more easy to monitor the condition of the seal
- DNV GL has verified this seal and it is in compliance with EPA's VGP requirements

### BENEFITS

- Environmentally safe: zero-emissions of oil
- Enhanced performance: zero-leakage of water into the seal
- Stable working: 24/7 Condition Monitoring of the seal
- Safe: fail-safe modus in case of system black-out
- Simple: compact, self-regulatory system
